Forward Looking Statements

Cautionary Note Regarding Forward-Looking Information: Except for statements of historical fact relating to Gold Port Corporation., (the “Company” or “Gold Port ”), certain information contained in this presentation constitutes “forward-looking information” under Canadian and U.S. securities legislation. Forward-looking information includes, but is not limited to, statements with respect to the potential of the Company’s properties; the future price of gold; success of exploration activities; costs and timing of future exploration and development; the estimation of mineral resources; conclusions of economic evaluations; requirements for additional capital; and other statements relating to the financial and business prospects of the Company. Generally, forward-looking information can be identified by the use of forward-looking terminology such as “plans,” “expects,” or “does not expect,” “is expected”, “budget,” “scheduled,” “estimates,” “forecasts,” “intends,” “anticipates,” or “does not anticipate,” “believes,” or variations of such words and phrases. Forward-looking information is based on the reasonable assumptions, estimates, analysis and opinions of the management of the Company made in light of its experience and its perception of trends, current conditions and expected developments, as well as other factors that the management of the Company believes to be relevant and reasonable in the circumstances at the date that such statements are made. Forward-looking information is inherently subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of the Company to be materially different from those expressed or implied by such forward-looking information, including but not limited to risks related to: the Company’s goal of creating shareholder value by concentrating on the development of the Groete Gold Copper Project, believing that it has the potential to contain economic gold deposits; the Company’s assessment of future plans for the Upper Puruni property; managements’ economic outlook regarding future trends; the Company’s exploration budget for the Groete Gold Copper Project, and in particular, the availability of skilled labour, timing and the amount of the expected budget; the Company’s ability to meet its working capital needs at the current level in the short term; expectations with respect to raising capital; sensitivity analysis on financial instruments may vary from the amounts disclosed; and government regulation and environmental liability, as well as those risk factors discussed or referred to in the Company’s continuous disclosure filings with the securities regulatory authorities in Canada available at www.sedar.com. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking information, other factors could also cause materially different results. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking information. The forward-looking information contained herein is presented for the purpose of assisting investors in understanding the Company’s expected financial and operational performance and the Company’s plans and objectives and may not be appropriate for other purposes. The Company does not undertake to update any forward-looking information, except in accordance with applicable securities laws.

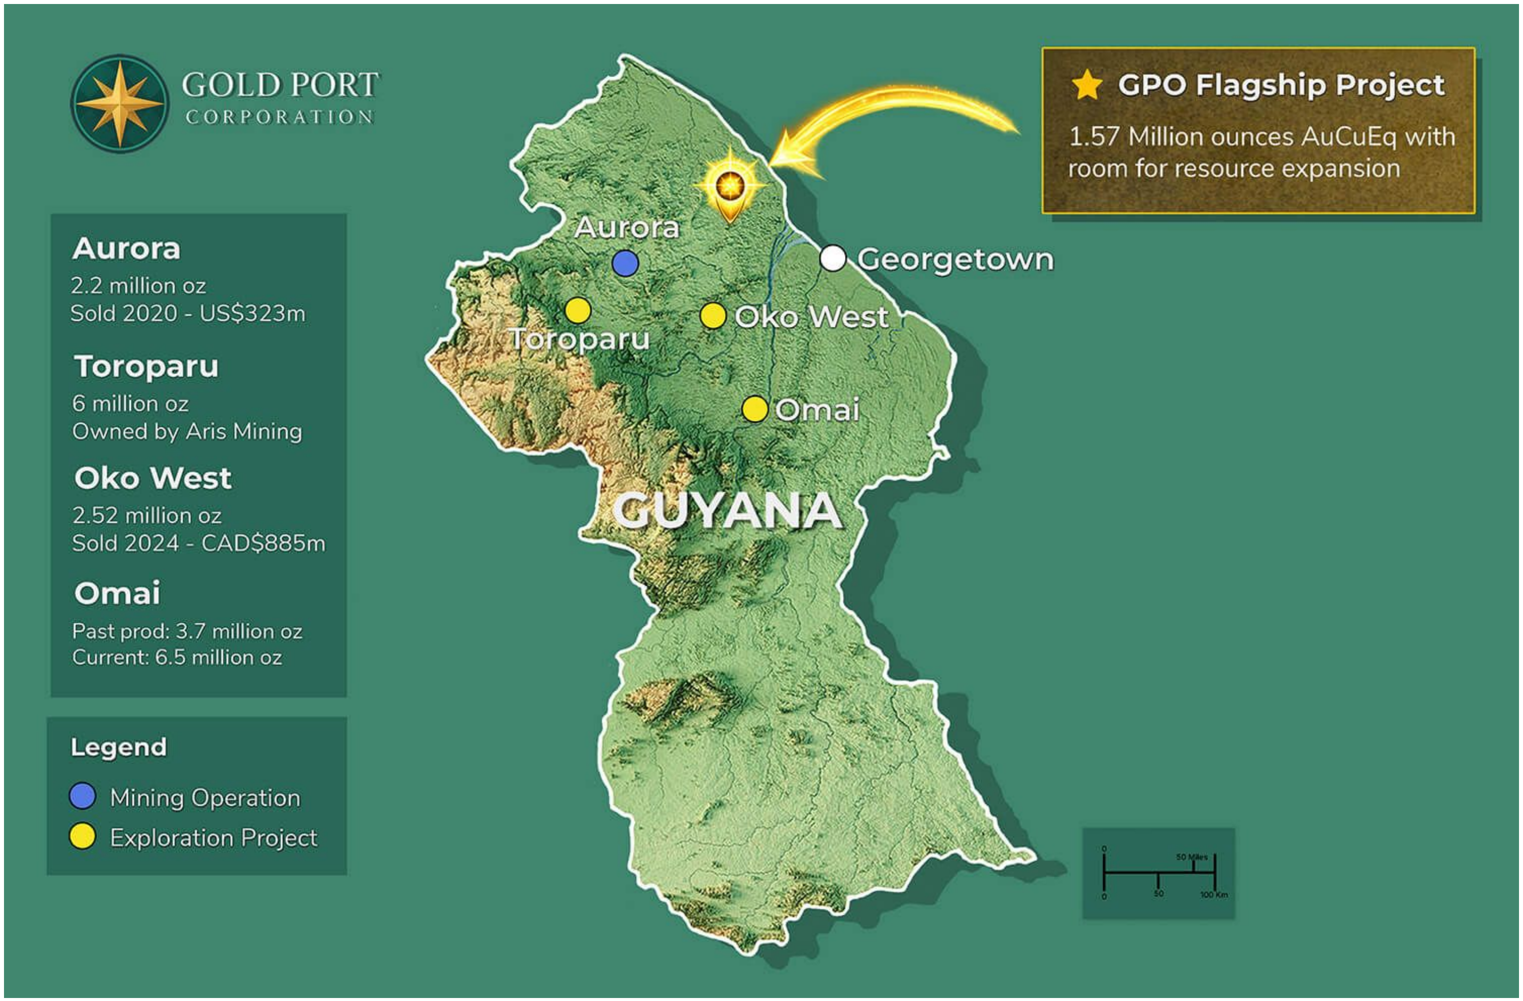
Cautionary Note to United States Investors Concerning Estimates of Measured, Indicated and Inferred Resources: This document uses the terms “ “Inferred” Resources. United States investors are advised that while such terms are recognized and required by Canadian regulations, the United States Securities and Exchange Commission does not recognize them. “Inferred Mineral Resources” have a great amount of uncertainty as to their existence, and as to their economic and legal feasibility. It cannot be assumed that all or any part of an Inferred Mineral Resource will ever be upgraded to a higher category. Under Canadian rules, estimates of Inferred Mineral Resources may not form the basis of feasibility or other economic studies. United States investors are cautioned not to assume that all or any part of Measured or Indicated Mineral Resources will ever be converted into Mineral Reserves. United States investors are also cautioned not to assume that all or any part of an Inferred Mineral Resource exists or is economically or legally mineable. The contents and preparation of this presentation were supervised by, and have been reviewed and approved by Mr. William Feyerabend, a Certified Geologist and a Qualified Person as defined under National Instrument 43-101.

Mineral resources, which are not mineral reserves, do not have demonstrated economic viability. Environmental, permitting, legal, title, taxation, sociopolitical, marketing, or other relevant issues may materially affect the estimate of mineral resources. The quantity and grade of reported Inferred resources in this presentation are uncertain in nature and there has been insufficient exploration to define these Inferred resources as an Indicated or Measured mineral resource and it is uncertain if further exploration will result in upgrading them to an Indicated or Measured mineral resource category. Based on P&E analysis contained on July 9, 2020, press release.

This resource estimate is preliminary in nature and includes Inferred mineral resources that are considered too speculative geologically to have the economic considerations applied to them that would enable them to be categorized as mineral reserves, and there is no certainty that the current resource will be classed as a reserve.

Groete Gold Copper Project Regional Gold Mineralization

The Groete Gold Copper Project is on a regional-scale mineral trend with significant gold deposits



Groete Gold Copper Deposit

- 100% owned project comprise of 3 Mining Permits totaling 1,384 hectares
- Very accessible project located only 8 kilometers from deep water
- 22 historical drill holes of 6,521 meters identify a gold copper zone with a strike of 1,200 meters
- An in-pit NI-43-101 Inferred Resource of 1.57 million ounces at 0.66 grams per tonne gold equivalent (AuEq) including 0.49 g/t Au and 0.12% copper (Cu) contained in 74.8 million tonnes (US$1,275 per ounce gold price and US$3 per pound copper price used in calculation)

PROJECT IS OPEN IN ALL DIRECTIONS

- Preliminary Metallurgy – High recoveries of Copper 96.6% & Gold 82.4% by conventional methods (SGS Canada)
- **New exploration plan to upgrade and potentially expand the current gold copper resource**

Guyana - a rapidly developing country

The Co-operative Republic of Guyana is a rapidly developing country located next to Venezuela in South America. Guyana identifies with the Caribbean. English speaking and British Common law establish Guyana as a good country to do business in. With a history of gold exploration and production, and recently significant hydrocarbon development, Guyana enjoyed a Gross Domestic Product growth of 10.3 % in 2025. Guyana is poised to become a major player in the world energy market.

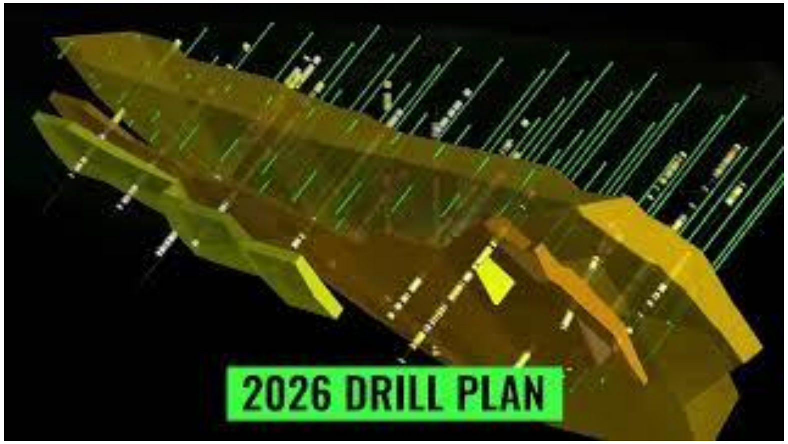
With a well-established system of mineral tenure, and record mineral prices, Guyana is experiencing a significant growth in exploration activity.

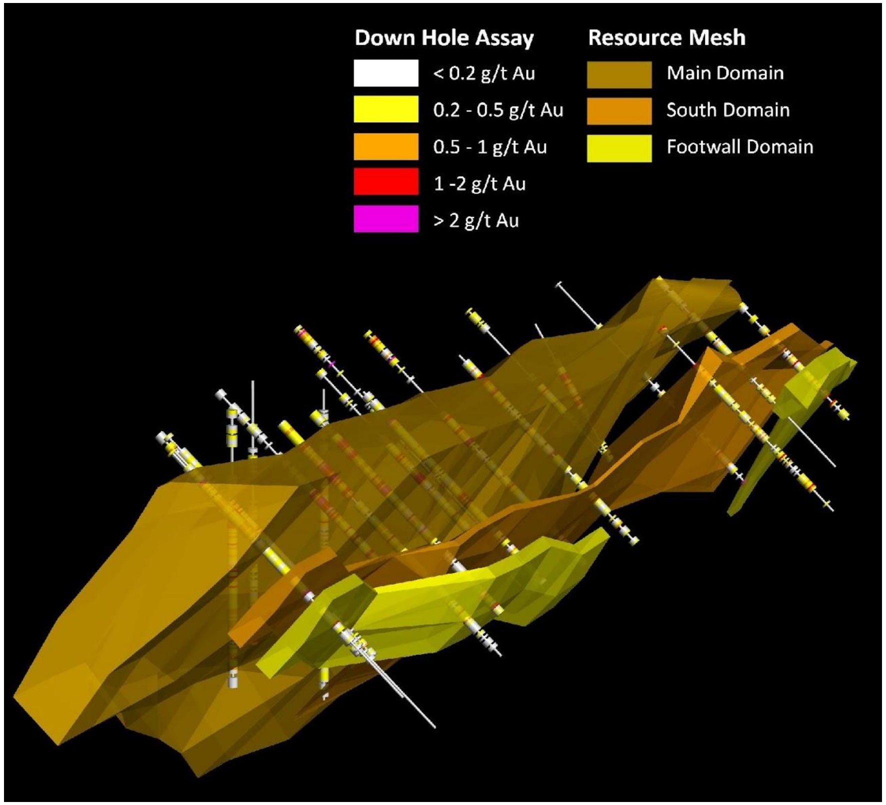
Georgetown the Capital of Guyana

Current Gold Copper Resource Calculated on US$1275 Au

Inferred Resource Calculation based on 2012 Drilling

- An in pit, 2019 Inferred Resource of **1.57 million ounces at 0.66 grams per tonne gold equivalent** (AuEq) including 0.49 g/t Au and 0.12% copper (Cu) contained in 74.8 million tonnes





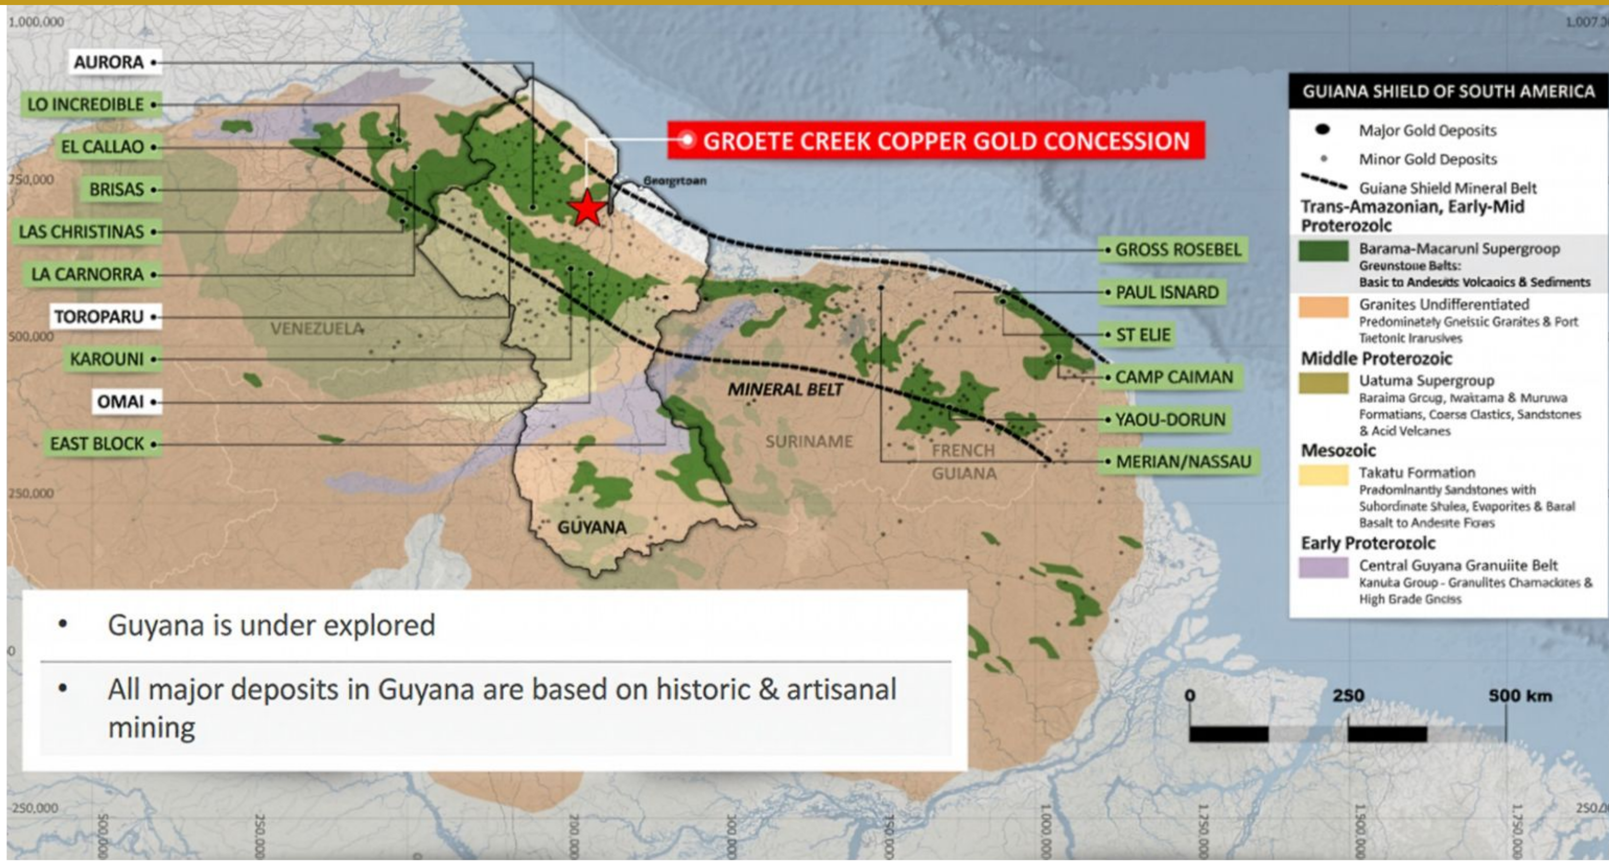
Exploration Focus on Increasing Quality and Expanding Total Resource

- Proposed 35-hole program totaling 8,102 meters holes from 60 m to 370 m
- Infill program to upgrade current inferred higher-grade core to measured and indicated
- Step out drilling to test recently discovered surface gold zones
- Camp and Company owned rig ready for program
- Rig designed for this exploration environment

Multi-Power Discovery I Diamond Core Rig

- New equipment
- Full supply of drilling accessories

East Zone Expansion Potential



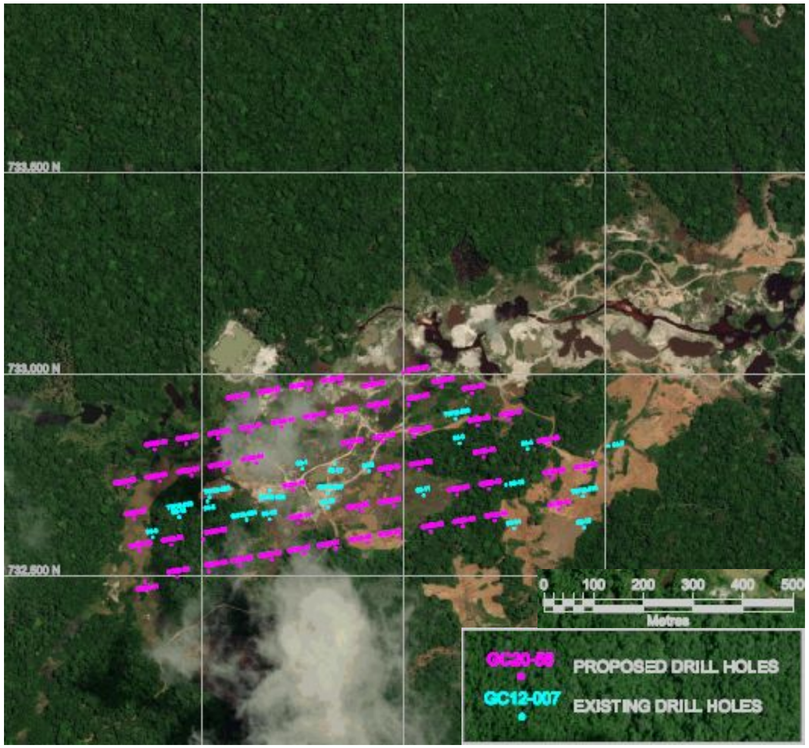
Strong Indication Of Potential Bedrock Mineralization 200 M East of Current Resource

- Geoprobe surface evaluation completed on eastern zone; 52 deep soil holes of up to 8.75 m in depth
- Significant deep soil results with up to 2.65 g/t Au over 8.75 m, surface down
- 47 of 52 shallow holes by a Geoprobe drill had over 0.10 g/t gold
- Including an entire drill hole with 2.65 g/t Au over 8.75 m

GOLD PORT CORPORATION

Groete Gold Copper Project LANDSAT with Drill Plan

Past drilling with success in the hard rock correlated with the surface expression of gold.



The above LANDSAT image shows the area of the current resource and surface mining east of that resource zone. Every hole that encountered surface gold in the saprolite zone connected with gold in the hard rock below. Past drilling with success in the hard rock correlated with the surface expression of gold.

2025-2026 Move Project to Preliminary Economic Assessment

Balance of 2025 for road access, camp and drill site preparation

Initiation of a drill program designed to upgrade the current inferred resource and potentially expand the overall mineral inventory

Ongoing metallurgical and costing evaluation for the preparation of a Preliminary Economic Analysis

2025

2026

Corporate Information

- Trading Symbol: **CSE.X: GPO | OTCQB: GPOTF**
- Approximately **68.6 million** issued and outstanding
- Transfer Agent: Computershare, Vancouver, B.C., Canada
- Legal Counsel: Gowlings, Vancouver, B.C., Canada

An Experienced Mining Team

Adrian F. C. Hobkirk PRESIDENT AND CEO	30 years exploration experience with 25 years in Guyana. Extensive business and political contacts in country. Acquired the Groete Gold Copper Project and managed the exploration to the current resource.
Allen V. Ambrose DIRECTOR	Founder and developer of Minera Andes to gold/silver production in Argentina , Co-discoverer of Brisas at Kilometer 88 in Venezuela, and current Director of McEwen Mining
William Feyerabend EXPLORATION MANAGER & QUALIFIED PERSON	40 years experience exploration and developing gold deposits including the Brisas in Venezuela ($14 million ounces) Member of Society of Metallurgical Engineers and AIPG.
Christopher P. Cherry DIRECTOR & CHIEF FINANCIAL OFFICER	Mr. Cherry has over 14 years of corporate accounting and audit experience. Mr. Cherry has extensive corporate experience and has held senior-level positions for several public mining companies, including director, CFO and secretary. Mr. Cherry has been a chartered accountant since February 2009, and a certified general accountant since 2004. In his former experience as an auditor, he held positions with KPMG and Davidson and Co. LLP in Vancouver, where he gained experience as an auditor for junior public companies and as an initial public offering specialist. Mr. Cherry served as CFO of the Company in 2012 and 2013 and has extensive knowledge of business in Guyana.
Richard Barnett, CPA, CGA DIRECTOR	Mr. Richard Barnett, CPA, CGA, is currently a director of three TSX.V companies and CFO of several TSX.V or CSE listed companies. Mr. Barnett has over 30 years of accounting and management experience with companies involved in gold exploration in Guyana, South America, Guinea, West Africa, Quebec, Canada and Iceland. He is President and CEO of Jerico Management Ltd., a privately owned company since 2001. Mr. Barnett will serve on the independent audit committee.
Samantha Latchman, MA COUNTRY MANAGER	Ms. Samantha Latchman has been appointed as Country Manager-Consultant, Georgetown, Guyana. Ms. Latchman has extensive experience in the mining industry in Guyana and has functioned in the capacity of Human Resources Manager in excess of six years, managing over 300 employees. Ms. Latchman holds a master's degree in Human Resources Management from Bedfordshire University and a Diploma in Business from Cambridge University.
